

CCS Summer Reading Log

Name: _____ Grade: Rising 1st

Kindergarten is a year of tremendous growth in many areas, especially reading. Our kindergarten students have grown so much in this area throughout this school year. In an effort to continue this growth in reading over the summer months, students are being challenged to participate in a voluntary summer reading program.

Students who read **7 picture books** will receive a treat from the first grade teacher at the beginning of next school year. More importantly, these students will receive the benefit of beginning first grade at a strong reading level. We hope that you will work with your child to complete this reading program. Please complete the reading log as books are read this summer and turn it in to your first grade teacher at the beginning of next school year.

Any books that are on your child's reading level would be appropriate for summer reading.

Have a great summer!
