

THE CCS HOUSE SYSTEM

2021-22

During Spiritual Emphasis Week in September of the 2021-22 school year, our upper school students were introduced to the new CCS House System. In this system, there are four houses with each house representing one of the four areas of our lives with which we are to love God.

THE FOUR HOUSES ARE

CORAZON (HEART) - RED

NEPESH (SOUL) - PURPLE

AKILI (MIND) - GREEN

DUNAMIS (STRENGTH) - BLUE

Staff sponsors for each of the houses spoke on their key theme during chapel. On Friday of Spiritual Emphasis Week, students were divided into the houses through a random selection. Students were encouraged to show spiritual maturity, fruits of the spirit, excellence in academics and athletics, service to others, school spirit, and many more attributes. As they demonstrated these attributes and grew in them throughout the year, they earned points for their house. The house with the most points at the end of the year would earn a banquet in their honor.

Flash forward to the end of the year...

Our inaugural year of the CCS House System concluded on May 13 with a celebratory banquet and awards presentation. The formal luncheon banquet took place in our cafeteria, which was completely transformed by parent volunteers and our amazing cafeteria staff.

Akili House came in a very close second with **1400** points,

followed by Dunamis with **1386**
